POWER 10

PD Power Bank With Wireless Charging

15W Wireless Charging: Charge your smartphones, smartly enough! Yes, you read it right, now charging has become just as smart as your smartphone! With a charging output of 15W and what's important to know that it is wireless!

18W Type-C PD Output: The fastest way to charge your smartphone or tablet would be to charge them through USB ports and herein you have the advantage in its supreme form as the 18W PD output acts as a catalyst for charging.

Dual USB Output: You can multitask now without even worrying about them charging out unevenly. The dual USB ports ensure that both the connected devices are charged simultaneously and just as efficiently

Type C Input: Type C input paves the way for more powerful charging and can allow the charging of a laptop too! Besides, it is energy efficient and ensures that the charging process is seamless and long lasting!

Lightweight: The Power 10 power bank is very light weight despite it carrying a 10000mAh battery inside it. The power bank has been built to last and owing to its lightweight build is perfect for portability!

LED Digital Display: The entire power bank has a LED digital display that allows for a seamless charging experience besides the power bank showcases all the details thoroughly and precisely on the screen!

Note: If your device does not support Qi-standards, you need to buy additional wireless receiver to use Power 10.

Compatible with: iPhone 11/12/13, Samsung Galaxy Z Fold 2, S20 FE, S6 Edge and other Qi enables devices.

Key 2 Combo

Multimedia Wireless keyboard & Mouse

Features & Benefits

- **Wireless keyboard and Mouse Combo:** With this Minimalistic keyboard and slim precision mouse combo, you just need to use provided USB wireless receiver dongle to start work comfortably on computer or laptop, compatible with Windows.
- **Compact And Small Keyboard:** The keyboard saves space as it is NOT a FULL-SIZE KEYBOARD and it DOESN'T have a 10-key number pad. Designed for business travel it is easy to carry into your bag.
- **Highly Responsiveness Mouse:** Enjoy high DPI sensitivity level of 1500 to suit both ordinary and gaming needs. Optical technology allows for quick response, precise movement, and smoother tracking.
- **Wireless Technology:** This plug & play 2.4 GHz wireless technology allows a reliable connection, 30 feet of range.
- **Thinner and Lighter Design:** The keyboard thickness is ONLY 1.5 cm and only weight of 336 g which maintains it a very sleek and elegant keyboard appearance.

UFO Home Charger

6 Ports 8A USB Charging Station

A PERFECT COMPANION FOR ALL YOUR USB CHARGING NEEDS

As we are surrounded by a multitude of smart gadgets, managing their charging cables and adaptors has become a nightmare. Whether you are at home/office or flying around the world, the Portronics UFO Home Charger is the perfect solution to charge your USB chargeable gadgets and devices conveniently from a single standard AC outlet. UFO is an amazing stride towards giving you a single powerful charging platform to simultaneously charge up to six devices like Tablets, Smartphone, Bluetooth headset, Mp3 player, Portable Speakers and all other 5V devices at the same time. The UFO Home Charger provides charging at a great speed since it supports maximum 8A of total output. The Total of 8A current capacity of UFO is divided such that even if you connect all six 2A devices to it, the total need of 12A is fulfilled by 8A such that each of these six 2A devices will get 1.2 to 1.5 A. This will not damage the UFO charger or the connected devices, but will only slow the charging process. UFO is BIS Certified and uses high quality industry grade materials coupled with advanced circuitry to ensure very safe and fast charging of all your USB powered devices. Make life Clutter-Free! UFO is so compact that it fits into a laptop bag or any carry-on bag for portability so that you do not need to carry your different Adaptors for each USB device separately.

TECH SPECS
